NovaLife Wellness

"We don't sell programs. We build systems."

DOCUMENT TYPE: Full Business Plan – CEO / Investor Level
DATE: March 2026

PREPARED BY:
Larry Novales, RND | ISSA Master Trainer

1. Executive Summary

NovaLife Wellness is a premium, system-based wellness and longevity company founded by Larry Novales — a Registered Nutritionist-Dietitian and ISSA Master Trainer with over 10 years of experience in performance coaching, corrective exercise, and longevity optimization.

Unlike conventional fitness coaching businesses, NovaLife operates on a systems framework — integrating nutrition science, strength training, recovery protocols, habit engineering, and longevity metrics into one personalized client experience.

> **Vision**
>
> To become Southeast Asia's leading longevity-focused wellness brand for executives, professionals, and health-conscious individuals.

> **Mission**
>
> To transform lives through science-backed, system-driven wellness — not trends, not shortcuts, not generic programs.

Why NovaLife Wins

- **Founder Credibility:** Rare combination of RND + Master Trainer + Longevity Specialist.
- **System-Based Approach:** We build behavioral and physiological systems, not just session-based workouts.
- **Data-Driven & Personalized:** Clinically informed protocols tailored to individual biomarkers.
- **Premium Positioning:** Targeted specifically at the executive and high-performance tier.
- **Scalability:** Built for growth through digital platforms and corporate wellness channels.

2. Problem Statement

> *"Diets fail. Gym memberships get abandoned. Systems win."*

The market faces a critical gap between conventional fitness and medical healthcare:

1. **Rising Lifestyle Diseases:** Hypertension, diabetes, and metabolic syndrome are surging among working-age adults in the Philippines and SEA.
2. **Lack of Structure:** Busy professionals and executives lack the time and expert guidance to build sustainable health habits.
3. **Generic Solutions:** The fitness industry is saturated with one-size-fits-all programs that produce short-term results and long-term frustration.

4. **The Clinical Gap:** Most fitness coaches lack clinical nutrition knowledge, creating a dangerous disconnect between training and health.
5. **Reactive vs. Proactive:** Longevity is treated as an afterthought rather than a proactive strategy.

3. The NovaLife Solution

We deliver a comprehensive **5-Pillar System** designed for sustainable transformation and longevity.

1. NUTRITION (RND-LED)

Evidence-based meal planning, metabolic assessment, anti-inflammatory nutrition, and body composition optimization.

2. TRAINING (PERFORMANCE)

Strength & conditioning protocols for real-life performance. Corrective exercise integration, lower body & glutes focus.

3. RECOVERY

Sleep optimization, stress management, deload protocols, and HRV monitoring guidance.

4. HABIT ENGINEERING

Behavioral systems, routine design, accountability structures, and identity-based coaching.

5. LONGEVITY INTEGRATION

VO2 max training, muscle mass preservation, metabolic health markers, and biological age optimization.

Why This Matters: This is not just fitness; this is longevity architecture. By focusing on metrics like VO2 max (the #1 predictor of longevity) and muscle mass (metabolic armor), we save clients from chronic disease and future medical costs.

4. Target Market

Primary Market

- Professionals aged 30–60 years
- Business owners and C-suite executives
- High-performers and entrepreneurs
- Health-conscious individuals investing in long-term transformation

Secondary Market

- Corporate companies (Employee Wellness)
- Individuals transitioning from fitness to longevity
- Post-rehab clients needing corrective exercise
- Mothers and family units building health culture

> **Client Persona Anchor**
>
> "Maria, 48, CFO. Elevated blood pressure, 8kg overweight, no time for traditional gym routines. She doesn't need a gym bro — she needs a system."

5. Market Opportunity

> *"The global wellness economy is the world's largest and fastest-growing industry — and it's just getting started."*

Global Wellness & Longevity Statistics

Market Segment	Value / Statistic	Source / Year
Global Wellness Market	**$5.6 Trillion**	Global Wellness Institute, 2024

Market Segment	Value / Statistic	Source / Year
Global Longevity Market	**$44.2 Billion** (projected $64.9B by 2030)	Grand View Research, 2024
Global Preventive Healthcare	**$432 Billion** — CAGR of 8.3%	Allied Market Research, 2024
Corporate Wellness Market (Global)	**$61 Billion** by 2027	Global Wellness Institute
Global Peptide Therapeutics Market	**$49.6 Billion** (projected $89.2B by 2030)	Fortune Business Insights, 2024
PH Health & Fitness Market	Projected **$1.2B+** by 2027	Statista, 2024
SEA Digital Health Market	**$40B+** by 2025	Google-Temasek Report
PH Personal Training Industry	Growing at **7.2% CAGR** annually	IBISWorld, 2024

Philippines Lifestyle Disease Statistics

Condition	Prevalence in PH	Trend
Hypertension	28% of Filipino adults (1 in 3)	▲ Rising
Diabetes Mellitus	7.1% prevalence (4M+ Filipinos)	▲ Rapidly rising
Obesity / Overweight	38.6% of adults (20+ yrs)	▲ Accelerating
Cardiovascular Disease	#1 cause of death in the Philippines	▲ Persistent
Metabolic Syndrome	Affects ~36% of urban Filipinos	▲ Rising in working-age adults
Physical Inactivity	56% of Filipinos are insufficiently active	WHO, 2023

Key Consumer Behavior Shifts

📈 PROACTIVE SPENDING

72% of consumers now prioritize preventive health over reactive medical treatment. (McKinsey Global Wellness Report, 2024)

💼 EXECUTIVE HEALTH ROI

Executives who invest in wellness report 23% higher productivity and 30% lower absenteeism. (Harvard Business Review)

🧬 LONGEVITY DEMAND

Searches for "longevity coaching" and "biohacking" have grown 300%+ in SEA over the past 3 years.

🏢 CORPORATE WELLNESS

Every ₱1 spent on employee wellness generates ₱3–₱6 return through reduced healthcare costs and higher productivity.

🎯 The Opportunity Gap

Very few providers in the Philippines combine **clinical nutrition expertise + performance training + longevity science + peptide protocols** at the premium level. NovaLife — through both its coaching arm and **Nova Lab** — is positioned to own this white space entirely.

5B. Nova Lab — Peptides & Longevity Distribution

"Nova Lab is the science arm of the NovaLife ecosystem — bridging clinical-grade peptide protocols with elite performance

and longevity outcomes."

Brand Overview

Nova Lab is a sub-brand under the NovaLife Wellness umbrella, dedicated to the sourcing, education, and distribution of **research-grade peptides and longevity compounds**. Positioned as the clinical bridge between fitness coaching and preventive medicine, Nova Lab offers clients access to cutting-edge bioregulatory tools used by longevity specialists, anti-aging clinics, and elite performance athletes worldwide.

NOVA
LAB
PEPTIDES · LONGEVITY · PERFORMANCE

- **Brand Positioning:** Premium, clinically-informed peptide solutions for health optimization and longevity.
- **Target Clients:** Existing NovaLife coaching clients, medical professionals, biohackers, executive health seekers.
- **Distribution Model:** Direct-to-client (coaching-integrated), B2B (clinics/practitioners), and e-commerce (future).
- **Regulatory Approach:** Education-first model; all peptides distributed for research/wellness purposes in compliance with applicable PH regulations.

Nova Lab Peptide Portfolio

🛠 RECOVERY, HEALING & ANTI-INFLAMMATORY

Peptide	Primary Benefit	Target Client	Demand
BPC-157 (Body Protection Compound)	Accelerated tissue & tendon healing, gut health, anti-inflammatory, nerve repair	Athletes, post-injury, gut health clients	🔥 Fastest Moving
TB-500 (Thymosin Beta-4)	Muscle repair, flexibility, systemic tissue recovery, reduces inflammation	High-performance athletes, post-rehab clients	🔥 High Demand
BPC-157 + TB-500 Stack	Synergistic healing — fastest full-body recovery protocol available	Serious athletes, chronic injury clients	🔥 Top Seller

💪 MUSCLE MASS & BODY RECOMPOSITION

Peptide	Primary Benefit	Target Client	Demand
CJC-1295 + Ipamorelin Stack	Maximal GH pulse, lean muscle gain, fat loss, improved recovery & sleep quality	Body recomposition clients, 30–55 executives	🔥 #1 Best Seller
IGF-1 LR3 (Insulin-like Growth Factor)	Directly stimulates muscle hypertrophy, satellite cell activation, nutrient uptake	Advanced athletes, muscle-building programs	🔥 High Demand
MGF (Mechano Growth Factor)	Localized muscle repair and growth post-training, stimulates muscle stem cells	Advanced bodybuilding, strength athletes	⚡ Growing
Sermorelin	Stimulates natural GH production, muscle preservation, anti-aging	35–60 yr clients, longevity & body recomp	🔥 Fast Moving
GHRP-6 (Growth Hormone Releasing Peptide-6)	Strong GH release, muscle mass gain, appetite stimulation, anti-catabolism	Lean bulking clients, underweight individuals, Nathan-type profiles	🔥 High Demand

Peptide	Primary Benefit	Target Client	Demand
GHRP-2	Potent GH secretagogue, muscle gain, strength boost, lower body fat	Performance athletes, body recomposition	⚡ Growing
Hexarelin	Strongest GH secretagogue, significant muscle mass gains, cardioprotective	Advanced performance clients, cardiac health focus	⚡ Emerging

🔥 WEIGHT LOSS & FAT BURNING

Peptide	Primary Benefit	Target Client	Demand
AOD-9604 (Anti-Obesity Drug Fragment)	Directly stimulates fat breakdown (lipolysis), inhibits fat formation — no blood sugar impact	Weight loss clients, Hazel-type profiles, metabolic clients	🔥 #1 Fat Loss Peptide
Tesamorelin	Clinically proven visceral fat reduction, GH stimulation, metabolic improvement	Executives with belly fat, metabolic syndrome clients	🔥 Fastest Moving
Semaglutide Peptide (GLP-1 analog)	Appetite suppression, insulin regulation, significant weight loss (10–15% body weight)	Obese/overweight clients, Type 2 diabetes risk, busy professionals	🔥 #1 Global Demand
Tirzepatide Peptide (GIP/GLP-1 dual agonist)	Superior fat loss vs. Semaglutide, metabolic reset, body recomposition	Advanced weight loss clients, executives seeking rapid recomp	🔥 Fastest Growing
CJC-1295 + Ipamorelin (Fat Loss Use)	GH-driven lipolysis, preserves lean mass while burning fat	Body recomp: simultaneous fat loss + muscle gain	🔥 Dual-Purpose
5-Amino-1MQ	Blocks NNMT enzyme — accelerates fat cell metabolism, enhances weight loss	Stubborn fat clients, metabolic optimization	⚡ Emerging Fast

⏳ LONGEVITY, ANTI-AGING & HORMONAL HEALTH

Peptide	Primary Benefit	Target Client	Demand
Epithalon	Telomere extension, anti-aging, circadian rhythm optimization, longevity marker improvement	Longevity-focused clients, 40+ professionals	🔥 High Demand
GHK-Cu (Copper Peptide)	Collagen synthesis, skin regeneration, wound healing, anti-inflammatory	Anti-aging, aesthetic wellness, 40+ female clients	🔥 Fast Moving
PT-141 (Bremelanotide)	Hormonal vitality, libido enhancement, sexual health optimization	Longevity & hormonal optimization clients, 35–60	🔥 High Demand
Thymosin Alpha-1	Immune system modulation, anti-viral, autoimmune support, energy optimization	Immune health clients, post-COVID recovery, longevity programs	⚡ Growing

🧠 COGNITIVE PERFORMANCE & EXECUTIVE EDGE

Peptide	Primary Benefit	Target Client	Demand
Selank	Anti-anxiety, stress reduction, cognitive clarity, mood stabilization	Executives, high-stress professionals, biohackers	🔥 Fast Moving
Semax	Cognitive enhancement, neuroprotection, focus & memory optimization, BDNF stimulation	Executives, CEOs, students, high-performers	🔥 High Demand
Dihexa	Synapse formation, memory enhancement, powerful nootropic — 10M× more potent than BDNF	Cognitive decline prevention, aging executives	⚡ Emerging

📦 **Nova Lab Portfolio Summary**

25+ peptides across 5 categories — Recovery, Muscle Mass, Fat Loss, Longevity, and Cognitive Performance. Nova Lab is the most comprehensive peptide distribution platform in the PH wellness space, integrated directly into the NovaLife coaching ecosystem for maximum client outcome and revenue synergy.

Nova Lab Revenue Model

💊 DIRECT CLIENT SALES

Peptide protocols sold directly to NovaLife coaching clients as add-on longevity tools. Average add-on: ₱5,000–₱15,000/cycle.

🏥 B2B DISTRIBUTION

Wholesale supply to integrative medicine clinics, sports medicine doctors, and wellness practitioners. Bulk pricing with margin 40–60%.

🌐 E-COMMERCE (YEAR 2+)

Online store for direct-to-consumer peptide education kits, protocol guides, and products for research/wellness use.

📚 EDUCATION & CERTIFICATION

Peptide literacy workshops for coaches, trainers, and practitioners — positioning Nova Lab as the authority in PH peptide science.

Nova Lab Financial Projections

Stream	Year 1	Year 2	Year 3
Direct Client Peptide Sales	₱360,000	₱900,000	₱1,800,000

Stream	Year 1	Year 2	Year 3
B2B / Clinic Distribution	₱480,000	₱1,440,000	₱3,600,000
E-Commerce & Education	—	₱360,000	₱900,000
NOVA LAB TOTAL	**₱840,000**	**₱2,700,000**	**₱6,300,000**

🧬 **Why Peptides + Coaching = Unbeatable Combination**

By integrating Nova Lab protocols directly into NovaLife coaching programs, clients receive a **holistic longevity ecosystem** — combining structured training, clinical nutrition, and bioregulatory peptide science. This is a differentiated, defensible, and highly scalable revenue vertical that no general fitness coach in the Philippines currently offers at this level.

6. Business Model

NovaLife employs a diversified revenue model to ensure stability and scalability.

Revenue Streams

- **Personal Coaching:** 1-on-1 In-person, Hybrid, and Monthly Retainers.
- **Signature Programs:** Executive Body Recomposition (3–6 months) & Annual Longevity Program.
- **Nutrition Coaching:** Standalone RND consultations and meal planning.
- **Corporate Wellness:** Company-wide programs, executive coaching, and seminars.
- **Digital Products:** App-based programs (Trainerize) and digital guides.
- **Nova Lab – Peptide Distribution:** Direct client sales, B2B clinic supply, and future e-commerce for longevity peptide protocols.

Pricing Strategy

Premium Positioning: We are not the cheapest; we are the best. Pricing is value-based, focusing on the ROI of health, performance, and career longevity.

7. Products & Services

NOVA STARTER

₱5k – 8k/mo

Target: Beginners

- Nutrition Assessment
- Basic Training Program
- 2 Check-ins per month

NOVA TRANSFORM

₱15k – 25k/mo

Target: Active Professionals

- Full Nutrition Coaching
- Hybrid Training (In-person + Online)
- Weekly Check-ins
- Trainerize App Access

EXECUTIVE LONGEVITY

₱30k – 60k/mo

Target: Executives & VIPs

- RND-Led Nutrition + Performance
- Recovery & Longevity Metrics
- Bi-weekly Assessments
- VIP Access & Priority Support

Corporate Wellness

Custom packages for companies (20–500 employees). Includes group sessions, executive coaching, wellness audits, and lunch seminars. Starting at **₱50,000/month**.

8. Competitive Advantage

Competitor Type	The NovaLife Advantage
Generic Personal Trainers	NovaLife offers **Clinical Nutrition + Longevity Science** integration.
Dietitian Clinics	NovaLife includes **Performance Training + Habit Systems**.
Wellness Apps	NovaLife provides **Human Expertise + Deep Personalization**.
Corporate Wellness Providers	NovaLife delivers **Depth of Expertise + Premium Execution**.

- **Unique Profile:** RND + ISSA Master Trainer is a rare combination in the market.
- **Systems Thinking:** We build behavioral systems, not just workout plans.
- **Executive Positioning:** Premium brand for premium clientele.

9. Customer Journey

- 1 **INQUIRY:** Client discovers NovaLife via content, referral, or outreach.
- 2 **ASSESSMENT:** Comprehensive intake — health history, body comp, lifestyle audit.
- 3 **PROGRAM DESIGN:** Custom system created (Nutrition + Training + Habits).

- 4 **EXECUTION:** Coaching begins (In-person, hybrid, or digital).
- 5 **MONITORING:** Weekly check-ins, data tracking, photo/video progress.
- 6 **OPTIMIZATION:** Program adjustments based on real-world data.
- 7 **RENEWAL / UPGRADE:** Progression to next tier or annual retainer.

10. Operations & Marketing Strategy

Operations Plan

- **Delivery:** In-person at gym/facility + Online via Trainerize.
- **Tech Stack:** Trainerize, InBody, Google Workspace, Canva.
- **Team Growth:** Solo Operator → Associate Coaches → Full Team.
- **SOPs:** Standardized onboarding, assessment, and check-in protocols.

Marketing Strategy

Core Strategy: Authority-First, Referral-Powered

- **Content Marketing:** Educational content on longevity & performance (IG, LinkedIn).
- **Referral System:** Incentivized client referrals & medical network partnerships.
- **Corporate Outreach:** Direct pitch to HR & C-Suite for wellness audits.
- **Strategic Partners:** Medical clinics, premium gyms, and corporate HR.

11. Financial Model (High Level)

Assumptions: Avg. revenue per client ₱18,000/mo | Corporate contract avg. ₱75,000/mo.

Metric	Year 1 (Foundation)	Year 2 (Growth)	Year 3 (Scale)
Individual Revenue	₱2,160,000	₱4,800,000	₱9,000,000
Corporate Revenue	₱900,000	₱2,880,000	₱6,000,000
Digital / Add-ons	₱240,000	₱600,000	₱1,200,000
TOTAL REVENUE	**₱3,300,000**	**₱8,280,000**	**₱16,200,000**

Profit Margin Year 1: ~91% Gross Margin (Service-based model with low overhead).

Combined Revenue Projection (NovaLife + Nova Lab)

Division	Year 1	Year 2	Year 3
NovaLife Wellness (Coaching)	₱3,300,000	₱8,280,000	₱16,200,000
Nova Lab (Peptides)	₱840,000	₱2,700,000	₱6,300,000
TOTAL COMBINED REVENUE	**₱4,140,000**	**₱10,980,000**	**₱22,500,000**

12. Scalability & Long-Term Vision

The Roadmap

- **Phase 1 (Year 1):** Establish core client base, build authority, systematize SOPs.
- **Phase 2 (Year 2):** Hire associate coaches, launch group programs, expand corporate vertical.
- **Phase 3 (Year 3+):** Multi-branch integration, digital platform launch, licensing model.

> *"NovaLife is not a fitness studio. It is a longevity architecture firm for high-performing humans."*

10-Year Vision

NovaLife Wellness Centers across major PH cities, a SEA-wide digital longevity platform, and recognition as the preferred corporate wellness partner for the top 100 companies in the Philippines.

Investment Opportunity

NovaLife is at the pre-scale stage with a proven founder, validated model, and growing demand. Capital deployment will accelerate tech infrastructure, team expansion, Nova Lab peptide distribution scaling, and brand dominance in the longevity sector.

Combined 3-Year Revenue Target: ₱22,500,000+
Coaching + Nova Lab Peptide Distribution + Digital Platform
